 - b. he or she has advised the exhibitor of these competition requirements for the Colorado State Fair; has instructed and cautioned the exhibitor regarding sabotage, tampering, prohibited substance, unethical fitting; and

12. The exhibitor's signature, and a minor exhibitor's parent's/guardian's signature, on the nomination form is required to certify that the entry is a bona fide, enrolled project of a Colorado 4-H or FFA program.
13. By signing the nomination form, the exhibitor, or a minor exhibitor's parent/guardian, certifies that he or she has read and has been advised of the Colorado State Fair General Competition Requirements, Junior Livestock Competition Requirements, Junior Market Sale Participation Requirements, and special Division Competition Requirements.
14. The exhibitor's signature, and the minor exhibitor's parent's/guardian's signature, certifies that he or she agrees to abide by all competition requirements regarding sabotage, tampering, prohibited substance, and unethical fitting.
15. The exhibitor and exhibitor's parent/guardian must sign the Quality Assurance Certificate and fully disclose the complete history of all vaccinations, medications, or additives given to the animal while under the control of the exhibitor, whether by prescription, over-the-counter, or by any other means. Each exhibitor shall submit a Quality Assurance Certificate to the Livestock Office or a superintendent at the time of market animal inspection.
16. In the event a market animal exhibits clinical signs of a contagious or infectious disease after it has arrived at the Colorado State Fairgrounds, the exhibitor of the animal (or the exhibitor's parent, a superintendent, or member of State Fair management on behalf of the exhibitor) must contact a Colorado State Fair veterinarian for an assessment of the animal, and if deemed appropriate, for treatment of that animal. If the veterinary diagnosis is that the animal's clinical signs are not due to a contagious or communicable disease, the animal may remain on the fairgrounds and be exhibited upon approval of the veterinarian. If the affected animal needs medication, the veterinarian will manage the animal's treatment at the exhibitor's expense. The veterinarian must document the treatment in the exhibitor's packet. Exhibitors whose animals have received medications at the veterinarian's direction while at the Fair and that have qualified for the Junior Livestock Sale shall disclose all medications administered to determine whether any withdrawal time for said medications used to treat the condition exceeds the withdrawal time, according to the medication's product label for that species.

If an animal is treated with medications while on the fairgrounds, either by a Colorado State Fair veterinarian as set forth above, or by any other party, and if the withdrawal times for the medication(s) administered exceeds the product's label then in such instance, the Colorado State Fair Authority ("Authority") shall have the right, but not the obligation, to take possession of or slaughter the animal if deemed necessary. In the case of slaughter, Colorado State Fair Management will determine the procedure for slaughtering said animal.

If at any time during, prior to, or following the time of the market animal inspection, it is discovered that an animal has received medication in connection with any treatment occurring prior to arriving at the Colorado State Fairgrounds for the Colorado State Fair, and if, according to the medication's product label, the withdrawal time for any such medication used during said treatment surpasses the date upon which the market animal inspection occurs, that animal will not be eligible to compete at the Colorado State Fair, and the Authority will have the right, but not the obligation, to order that the animal be removed from the Colorado State Fairgrounds.

17. Pursuant to the Authority's Junior Livestock Competition requirements, the carcass of an animal must contain no trace or residue of any illegal drug or any other substance not approved for administration to such animals under applicable laws or Colorado State Fair competition requirements. This means that if positive results are reported to the Authority from its lab, the Authority has an obligation to investigate to determine what circumstances led to this result.
 - a. Unapproved drugs are prohibited. Unapproved means not approved by the Food and Drug Administration (FDA) and/or the United States Department of Agriculture (USDA) for slaughter animals that may be destined for human consumption. This includes the use of all products that are not FDA approved including, but not limited to any diuretic, unapproved growth stimulant, or other unapproved medication meant for human usage.
 - b. Non-label use of drugs is prohibited. The non-label use of approved drugs is prohibited and may result in additional investigation around the circumstances and may result in disciplinary action.
 - c. Products labeled "all natural" that are not FDA-approved may contain ingredients that can result in a positive test. It is your responsibility to know what ingredients are included in products labeled as "all natural." This includes feed and feed supplements. You have an absolute responsibility to know what is in the feed and supplements you are giving your animals.
18. The satisfactory completion of either the Colorado 4-H Meat Quality Assurance program or the YQCA program are acceptable to the Colorado State Fair.

Junior exhibitors are expected to have prepared their own project animal for exhibition. While on the Colorado State Fairgrounds, it is expected that animals exhibited in any junior show must be handled, fitted, dressed, washed, groomed and shown for show competition by the junior exhibitor. **Should any Colorado State Fair official observe anyone other than the exhibitor, another active Colorado 4-H/FFA member, or a member of the exhibitor's immediate family preparing an exhibitor's Market animal for show, that exhibitor may be immediately disqualified from that show, and from any other show the exhibitor is participating in, and removed from the Colorado State Fairgrounds.**
